

## London Heathland Heritage Project

### More Heath Please!

The South Norwood Wildlife Watch Club invited families to join them to gather heather seeds and clear tree seedlings from the heather areas on Addington Hills. 20 adults and children spend two hours collecting heather seeds, which were sown on site in prepared scrapes, pulled dozens of tree seedlings and searched for lizards. Heathland badges were made at the end to honour all the hard workers.

Two generations of the Pickett family

Matthew Pickett & Henry Weiser, proud tree pullers.
